www.rru.ac.in

About the University

Rashtriya Raksha University (RRU) has been constituted under a Parliamentary legislation and accorded the status of Institution of National Importance with the express aim of creating a working environment dedicated to the advancement and dissemination of education, research, training and scholarship of the highest quality. The domain focus of RRU is on policing and internal security including coastal policing, security, law enforcement, criminal justice, cyber security, cybercrime, artificial intelligence and related areas. RRU, with its inclusive approach, intends to ensure public safety by building human capital who are endowed with the necessary intellectual acumen, moral commitment and professional competence to meet hands-on, the challenges of crime, justice and public safety in a free society.

About the School

One of the most sought after programmes under the umbrella of Rashtriya Raksha University, School of Information Technology, Artificial Intelligence and Cyber Security (SITAICS), offers an excellent atmosphere for students to learn and acquire the necessary skills demanded by the industry today. The well thought out curriculum requires the stakeholders to take up a broad spectrum of courses while simultaneously allowing them to emphasize on the desired areas of specialization. The school has the vision to contribute to internal security by developing, delivering and conducting research in the fields of cyber world, technology and communication in order to protect critical IT infrastructure and build National Security. School of Information Technology, Artificial Intelligence and Cyber Security (SITAICS) aims to integrate education and research in order to cater to the real-world complexities and provide solutions to the world's challenges by building up capacity and capability of the generations to come.
